NYAYASAARTHI EXPLANATION

The dataset identifies Motor Vehicles Act, 1988 (Act No. 59 of 1988) · Section 112(1) as potentially relevant to your confirmed situation. Drivers must stay within the maximum and minimum speed limits set for their vehicle class; the enabling section itself does not set the numeric limits, which come from separate central/state notifications (see legal_sources: SRC_SPEEDLIMIT_SO1522E_2018).

QUALIFICATION

This is legal information, not an offence finding. Source and provision review statuses come from the local dataset; the application has not independently authenticated the linked government pages. No numeric penalty, deadline, or procedural requirement is stated without an eligible supporting record.

07 What Is Still Uncertain

No structured rule was established as applicable to the confirmed facts.

Some candidate rules need more confirmed facts or reviewed lookup data.

Numeric speed-limit records lack legal-source review; no speed threshold or penalty is asserted.
